Work Experience

Deloitte USI- Solution Delivery Analyst - SAP Security (Jun 22 - Aug24)

- User administration activities in different systems including user creation, user termination, lock/unlock, profile modification, password reset (GUI/SSO) and user reactivation in production and non-production environments using different approaches (SU01, SU10, CUA, Firefighter, GRC).
- Experience in Role administration of various roles Viz. single, derived, composite and enabler roles including role creation, upload/download, modification and regular deletion of the roles.
- Troubleshooting issues using the SAP transactions SU53, ST02, STAUTHTRACE, SUIM reports and security tables (using SE16) and providing role suggestion
- Worked on change management tasks depending on the business requirements.
- Experience in Firefighter tasks, OSS ID related tasks and performing Segregation of Duties(SOD) for analysis of risk and its mitigation
- Handled GRC tasks related to approver access and role mapping in GRC systems along with GRC team.
- Knowledge and hands on experience with GRC 10.1 and modules of access control(ARA/ARM/EAM/BRM)
- Conducted knowledge transfer sessions for associates upto lead level.
- Expertise in handling service requests and incidents with SLAs and other ITSM tools.
- Command over communication with end users of various regions
- HANA DB and SAP FIORI - Basic User and role administration tasks in Hana DB and Fiori.
- Creating the EAM user (Admin, owner, controller, FF)
- Assigning these roles accordingly and create the FF id with super user privileges, Assigning the firefighter owners, fire fighter controllers and fire fighter to FFID

Deloitte USI- Technology Intern (Feb 22 - May 22)

- Participated in SAP Boot-camp, gaining knowledge of role types and their creation in SAP
- Assisted with user administration tasks, including new user setup/modifications, lock/unlock, deletion, de-provisioning, and password reset
- Acquired expertise in SAP FIORI Launchpad and its components, including catalog creation, business group setup, and role creation

Zenida Studios- Game Tester Intern (Nov 20 - Dec 20)

- Provided feedback for online gaming performance, measuring qualitative impacts of factors such as latency, download speeds, and other network considerations.

Areas of Interest

- Programming languages : C++, Python, Java
- OOPS
- Cyber Security
- Artificial Intelligence
- Machine Learning
- Problem Solving
- HTML & CSS

Certifications

Data Engineering - Foundation 2023
Machine Learning - Foundation 2023
Problem solving certificate by HackerRank
Cybersecurity Essential by Cisco
CyberOps Associate by Cisco

Educational History

Master of Science(2024-2026)

Old Dominion University

Computer Science

CGPA:

Bachelor of Engineering(2018-2022)

Osmania University

Computer Science and Engineering

CGPA: 7.98/10

Trainings and Projects

AI Academy, 2022

- Completed the 8-week Deloitte AI Academy certification program, covering Python, SQL, Data Engineering, Power BI, Azure Cloud Services, Artificial Intelligence, and Machine Learning
- Performed a 4-week Capstone project using these technologies and presented it to experts

Gesture Based Input System:

- Developed a new way to interact with computers without using a traditional keyboard and mouse using hand gestures.
- Utilized Python and PyCharm/Jupyter as the programming language and IDE.

Ethical Hacking from Internshala:

Online course of Ethical Hacking where I learnt:

- Basics of Information Security and Computer Networking
- Information Gathering and Basics of Web Development
- Introduction to Web VAPT, OWASP and SQL Injections
- Advanced Web Application Attacks
- Client Side Attacks
- Identifying Security Misconfigurations and Exploiting Outdated Web Applications
- At the end of the course I used the concepts taught in the training, to find all the vulnerabilities in an e-commerce website and wrote a VAPT report.

Web Development- Verzeo

- Attended corporate learning and development programs to gain competencies and professional skills.
 - Minor Project: User Profile website creation.
 - Major Project: Creating User Management System.
 - Studied basic project requirements with assigned technical lead and planned development strategies.
 - Certificate by MICROSOFT USA & VERZEO on completion.
-

Accomplishments

Achieved Gold badge in C programming proficiency in Hackerrank.

Awarded with a cash prize for being the first best performer in academics.

Scored 82.46% in TCS National Qualifier Test.
